INTERNATIONAL FALCON MOVEMENT SOCIALIST EDUCATIONAL INTERNATIONAL

The International Falcon Movement-Socialist Educational International (IFM-SEI) is an international educational movement working to empower children and young people and fight for their rights.

We are an umbrella movement of 60 children and youth-led organisations all over the world, educating on the basis of equality, democracy, peace, co-operation and friendship.

Through our activities, we aim to ensure children and young people are well informed about their rights and are empowered to ensure they are respected. To reach this goal, we organise many activities, including seminars, training courses, international camps and campaigns.

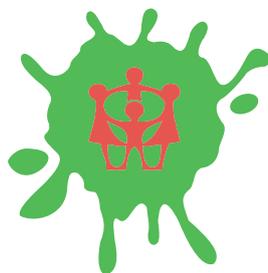

What does IFM-SEI do?

We run lots of activities every year. Some examples:

Volunteering against Poverty: Volunteers live for one year in another country to work for another member organisation. Together they raise awareness on child and youth poverty through educational activities and through producing a documentary on poverty together.

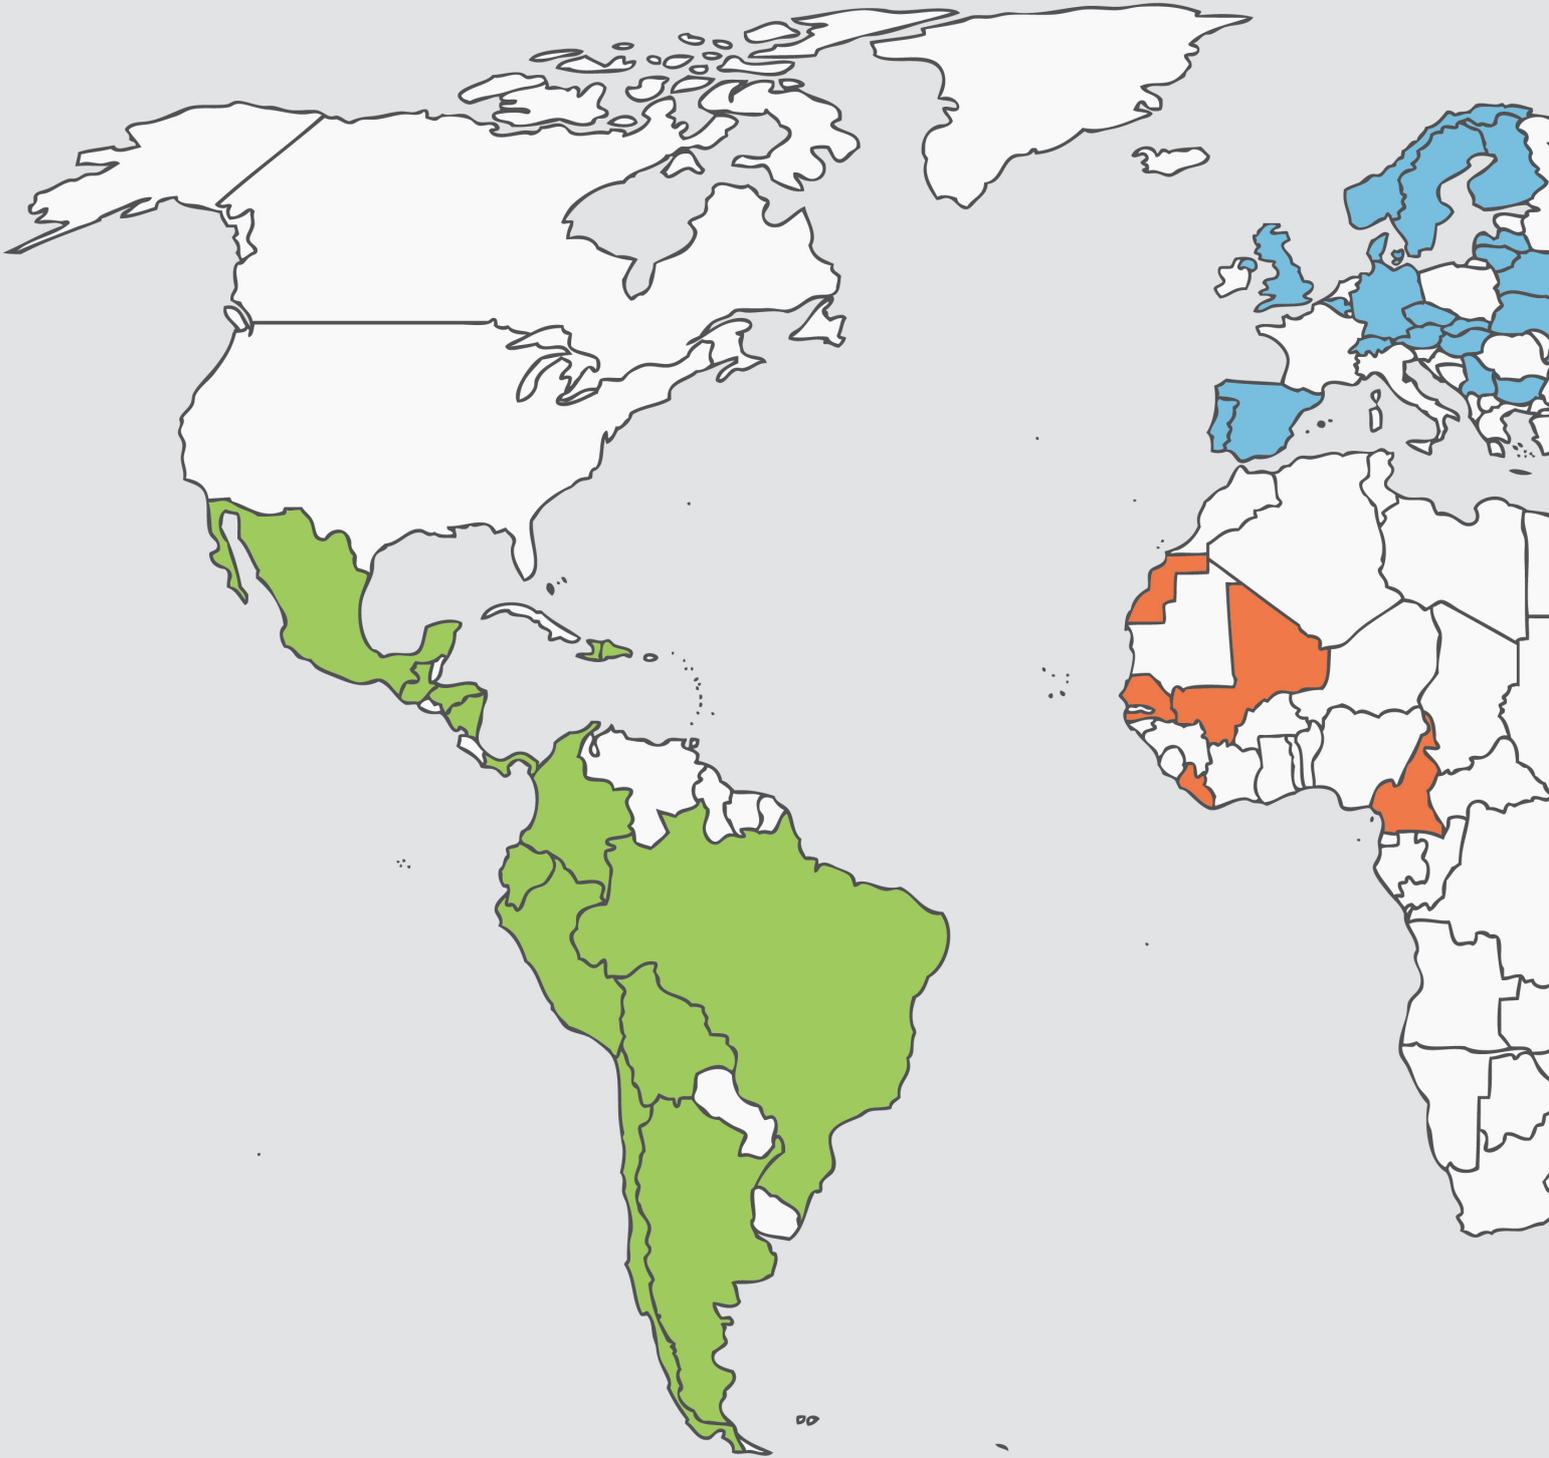

All Together against Climate Change: Young people around Europe learn about climate change and how to organise campaigns, so that they can raise awareness on how to fight climate change in their organisations and towns.

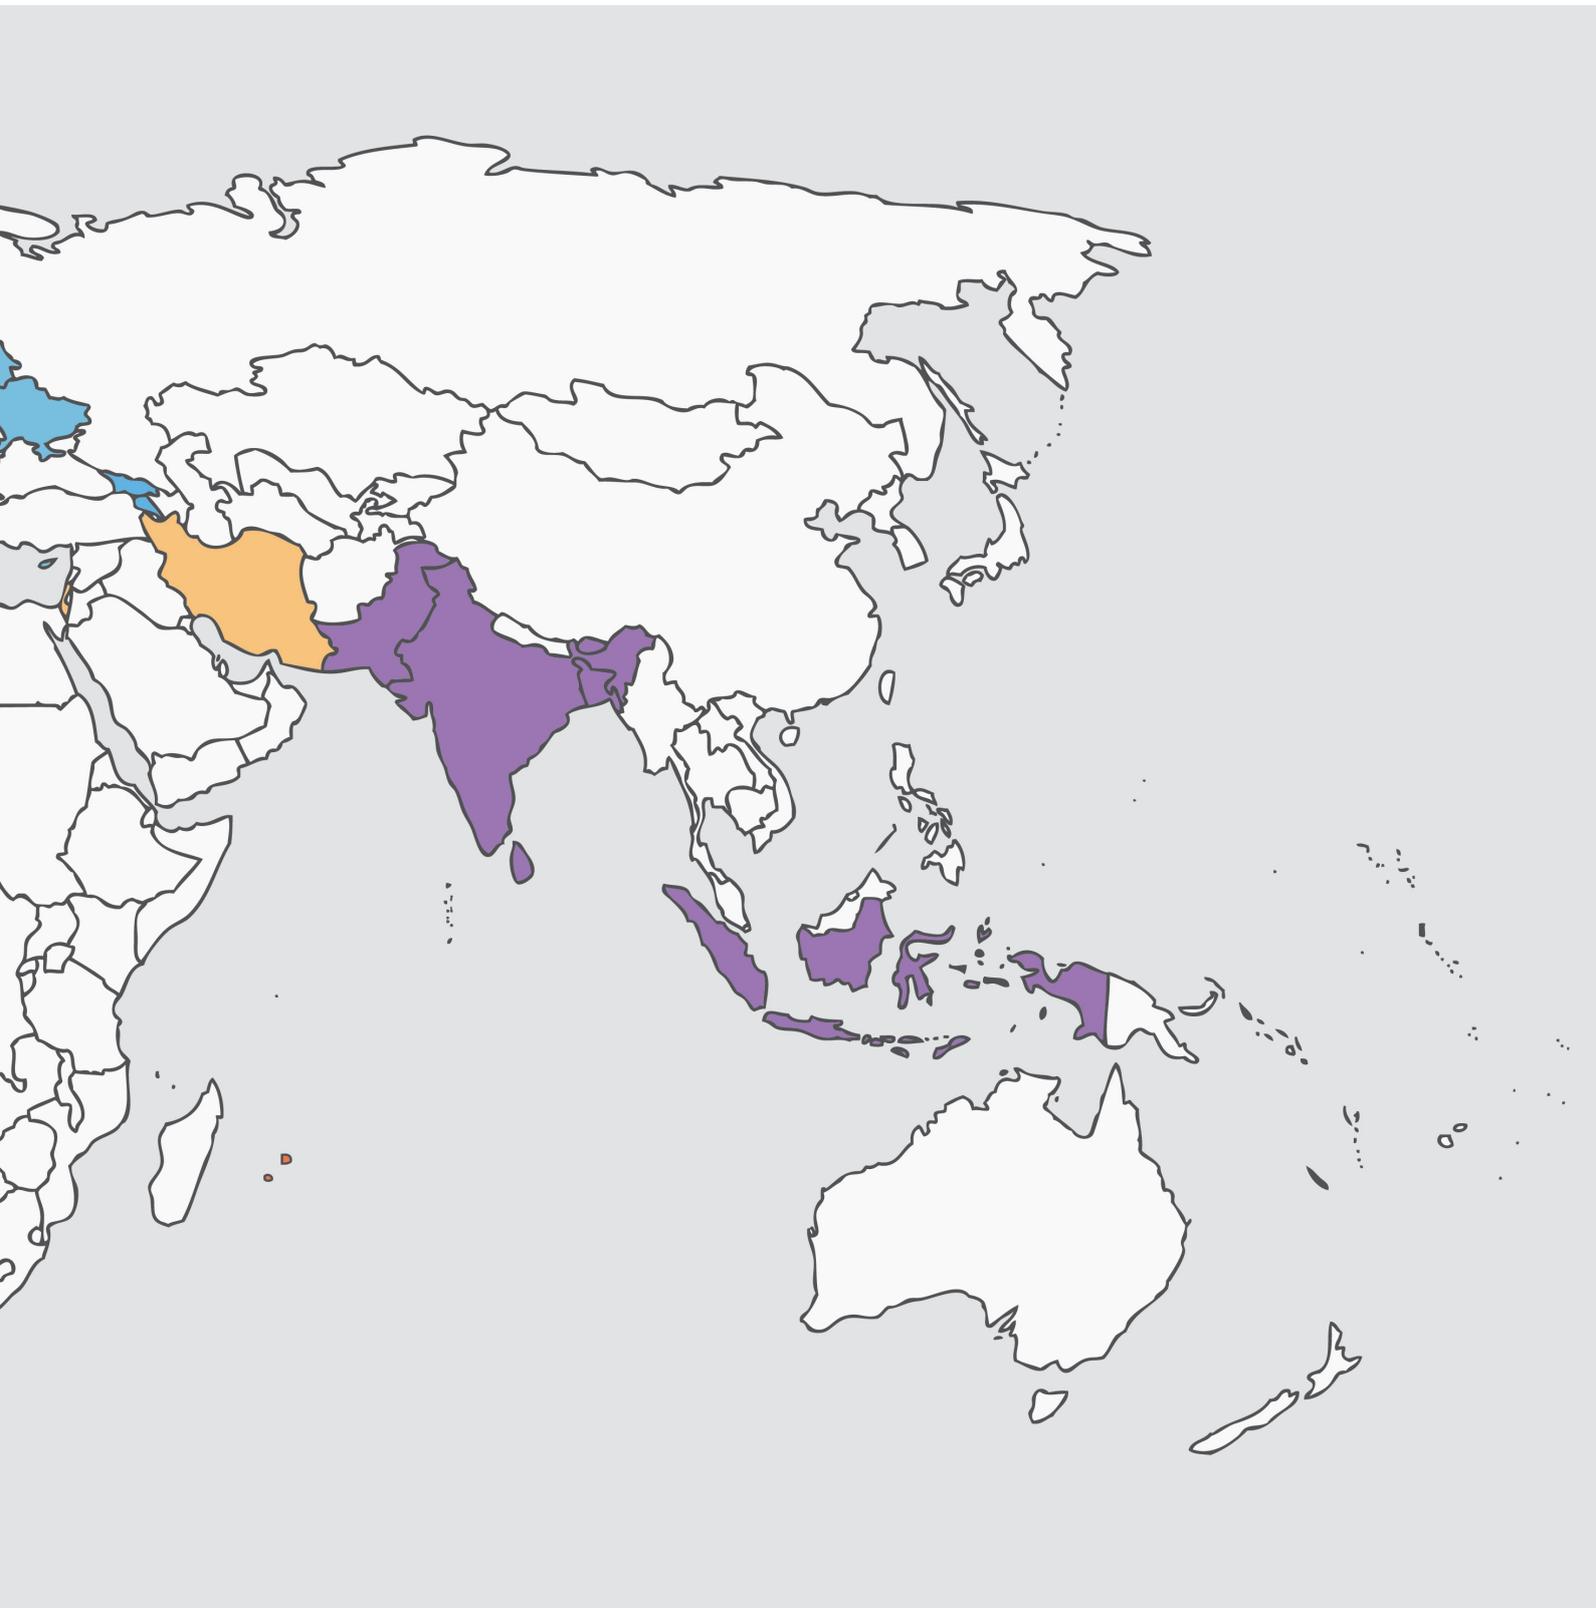

Train for Change: The last IFM camp took place in Austria and Czech Republic in 2010. 1000 children and young people spent 2 weeks together to play, discuss and take action for social change.

Where do we come from?
