This Congress notes that racism and institutional racism exist across the globe and within our movement.

This Congress believes that IFM-SEI; the Presidium, the Secretariat and all Member Organisations should take action to educate individuals.

This Congress wishes IFM-SEI to challenge racist behaviour and discriminatory practices, seeking to create safe and inclusive spaces for all.

This Congress asks the Presidium to:

- Produce an Anti-Racism Policy with clear procedures for reporting and taking action on racism.
- Co-ordinate Anti-Racism training every 3 years, this training to be mandatory for the Presidium, the Secretariat and seminar facilitators.
- Include an Anti-Racism workshop at IFM activities.
